REPORT

FRIZONMAICA WEST WILD RIVER SRL & AGRICOLA OOSTROEM SRL
31.12.2019

Introduction

Dear Sirs,

This report is addressed to and intended for the information of the addressee, it is not to be referred to or quoted, in whole or in part, in any other context without our prior written consent. This report is based on the latest information. We emphasize that our presentation would not necessarily disclose all matters of significance to you relating to the Company.

This presentation is for the use of the Frizon Group and its shareholders and should not be distributed outside. We have taken all necessary steps in order to ensure that the presentation is free of misstatements.

Should you have questions or comments, do not hesitate to contact us.

Yours faithfully,
Teofil Dascălu & Anca Isac

All the statements in this report are based on the financial information produced by the Companies, according to Romanian Accounting Regulations and discussions with the management, namely Mr. Teofil Dascălu. No attempt has been made to independently verify those statements and they are taken as they have been mentioned to us by the management.

The figures included in this report are based on the aggregations of the two companies financials. In making our analyzes for FrizonMaica & Agricola Oostroem, the intra group mutual debts in total value of 90k Euros were eliminated.

Executive Summary

According to management, the other group Frizonagra & Frizonagra Crops operates an area of 2,319.25 ha with 13 employees, and FrizonMaica & Agricola Oostroem operates 1,485,19 ha with 11 employees, from which 5 works also at Tătăranu at logistic center. The total value of salary expenses is 246k euros for FA & FAC, while for the FM & AGR group, the value is 156 k euros, including contributions and tax to the state budget (47,25%). Future step will be contract work in order to save half of the state tax for the salary.

Executive Summary

The Companies are operating since 2015 and 2017 respectively. They are in a process of consolidating the land.

The Farms operate the land leased from both individuals and legal entities. At December 31. 2018 both companies were operating 1,457 ha land (see other operating income for the structure), and in 2019, 1,485,19 ha to date. One of the companies from Group, FrizonMaica owns 442,9914 ha at the end of 2019: 114,9583 ha in Nămolosa, 66,6315 ha in Nănești, 231,1983 ha in Măicănești and 1,7472 ha headquarter Măicănești, 1,5087 ha Tătăranu and 24,8484 ha headquarter Tătăranu and 2,099 ha in Salcia Tudor. Only in 2019, the Company bought 102,6198 ha and the strategy for future it's to buy more land.

During 2019 the Company received government and EU grants for agriculture, namely for the cultivated surfaces and for the fuel. Details are to be found in the Cost Structure section of the report.

The net profit margin is 13%, due to the efficiency of the works and of the high-performance equipment.

The Companies continues to recover the loss from the past.

STATEMENT OF FINANCIAL POSITION

The group continued investing in new equipment and in modernising the existing equipment. Also, the principal investments was made to rehabilitate the former sugar factory from Tătăranu bought in 2018. The tangible assets from Tătăranu increased by 1,136 k euros represent the new investments in land and the buildings.

The financing source for the new equipment is in principal the lease. In this case the leasing liabilities increased as a consequence. The lease agreements are for the maximum of 5 years and the principal lease companies with whom they collaborate are Unicredit Leasing, Deutsche Leasing and BT Leasing. In 2019 the working capital is negative, the resources to cover it being supplied by the associates and supplier's credit.

The Companies invested in new equipment through finance lease but also through short term borrowing. The investments based on short term facilities could affect in a negative way the activities for future and in this context, the Company change the strategy and want to make loans for a long period, over 10 years, with lower interest and the investments will be made in special through EU projects and in this context the Group wants to restructure the loans.

STATEMENT OF FINANCIAL POSITION

The group continue to invest in the creation of a large storage and distribution center with direct access to the loading point of Tătăranu railway station. There is a huge potential for investments that can rehabilitate or reactivate the agricultural assets developed in the 1960-1990 timeframe: farms, buildings and warehouses of former state-owned agricultural companies, former factories for processing agricultural production, irrigation facilities etc. with relatively low costs compared to new investments.

In this context, the investments to develop the logistic center in Tătăranu will be the following:

- The upgrade and rehabilitation of the electrical power system;
- The upgrade and rehabilitation of the natural gas supply system;
- The rehabilitation of the water supply and drainage systems;
- The construction of a weighing bridge;
- The installing of a lorry sampler probe and a state-of-the-art grain analysis laboratory;
- The construction of a receiving pit and a buffer silo with grain separator and dryer;
- The buying of a conveyor belt.

Also, the group continue to buy land from individual and juridical persons at good negotiated prices.

STATEMENT OF FINANCIAL PERFORMANCE

Income Statement	Notes	EUR '000			% of total revenues			CY to PY Change
		2017	2018	2019	2017	2018	2019	
Net profit for the period		-608	112	295	11.14%	5.28%	11.14%	163.70%
Distributed (dividends)		0	0	0	0.00%	0.00%	0.00%	0%
Current result carried forward		-608	112	295	11.14%	5.28%	11.14%	163.70%

The revenues increased in accord with the secondary activity, at Tătăranu Village, respectively storage and conditioning services for cereals, also for third parties. Thus, the policy of the management team is to develop the logistic center business, since the investment in Tătăranu has several advantages for obtaining a good return and recovery of the investment. In this context, the Group signed storage contracts with Alcedo and Cofco, especially for the autumn crops, wheat and corn. With Agricover we have a contract only to store and manipulate fertilizer.

The expenses with raw materials and materials used increased in accord with the works that are more expensive but lead to higher yield, among which is the use of liquid fertilizer and manure from poultry farms. The Group's management continues to focus on the use of active substances with higher efficiency than commercial crop products.

Equipment and Vehicles	145	263	122
TOTAL	158	290	154

Fixed assets value increase as a result of new acquisitions in special for the activity from Tătăranu and modernisation of old equipment. The Company invest to upgrade the big seeding machine Gaspardo Maximetro for variable sowing and the saving cost from the investment was 100 k euros as a result of low and specific seed consumption.

In 2019, FrizonMaica continue to invest in the former sugar factory from Tătăranu that become a strategic storage, a handling and distribution facility with railroad access. At the end of 2019 the total capacity of the storage is 32.000 tones, handling and distribution facility will be increased up to 150.000 tones.

The efficiency of new equipment surpasses old equipment and cost of modernising old equipment is sometimes significant. The mix of the equipment purchased is different that the one in Frizonagra group, as such as synergies can manifest by interchanging equipment for different operations between this two groups.

The Company bought the former sugar factory in 2018 and started to reconsolidate and rehabilitate the buildings from location to change the destination to an important place to storage cereals for intern necessity and also for all big traders. At the beginning this place looks like a ruin, the former sugar factory has become unfunctional since 1992 and initially we had to clean and to collect all waste from there to start the storage activity. The Company made investments in buildings for deposit and bought several equipment like drying system, electrical, ventilation system and anti-dust installation for cereals. Also the group bought a modern security system, included a thermal security video camera, it was purchased a lighting system for all the surface of 24 ha. The Company invest to a new grain analysis laboratory and to a new scale with modern system to scan automatically the number of trucks and the drivers. To manipulate a large quantity of cereals it was necessary to bought a big bunker and a grain belt conveyor of 25 mtr, that we financed by leasing contract with Idea Leasing for 5 years.

Revenues

In 2018, the Company reconsolidate a deposit with a storage capacity of 12.000 tones and in 2019 build a new one with a capacity of 30.000 tones of cereals. Also, to improve the way that we charge and discharge in train, the group made investments to a new concrete platform next to railroad, total expenses was 60 k euros.

For all investments it's was necessary a lot of authorizations and permits and for that the Company paid for technical studies, 60 k euros.

The entire investment of 2.122 k euros was made with money from cash-flow but the Company discuss already with more banks about a long-term credit for 10 years for 60% for the total amount.

The major advantage of this place it's the strategic position, respectively it's very closely to the railway and for that the Company save 10,5 euro/t:

- sale cereals in standard parameters of quality as a result of the possibility to storage for a long term and to dry & ventilation the goods to reduce humidity in special and save only from this, 3 euro/t penalty for drying cost paid to trader until now;
- storage without rent - it's the property of Frizonmaica;
- transport by train - more efficient and cheaper with more that 50% than the auto transport by trucks.

Also, the Company obtains incomes from the possibility to manipulate, storage, conditioning cereals (32.000 tones) and inputs - fertilisers, pesticides and seeds (10.000 tones) for third parties for a fee. In 2019, The Company earned incomes of 202 k euros from this activity. We deposit 3.000 tones wheat and 7.200 tones corn for Cofco, 266 tones sunflower for Alcedo and 6.000 tones fertiliser for Agricovert. The revenues comes also from the intragroup providing services, in 2019 Frizonagra & Frizonagra Crops deposited at Tătăranu storage facility more that 13.000 tones of corn.

The work in progress, which refers to the preparation of the next year production and land, increased with 198 k euros, determined by the use a different technology with liquid fertilizer and chicken manure.

The structure of crops is similar to the Group Frizonagra&Frizonagra Crops, the biggest surface it's also with corn, 71% from total 1,485.19 ha.

The crops structure for the agricultural year 2019-2020 was not fixed until the end of 2019, and in this context, all the expenses was registered in Work in progress Field (WIP Field), but in principal the structure of crops will be the same like in 2018-2019, plus a small surface with poppy 5,48 ha, a new crop for group, a surface with barley and also 55,98 ha with soybeans seeded in the pivot area.

Efforts are made by Group's management to follow closely the consumptions and the quality and efficiency of substances used.

In 2019, FrizonMaica WWR borrowed for long term, for 5 years in special from Agricover IFN credit to refinancing the land property and in this way to continue the investments in the former sugar factory from Tataranu that become a strategic location to storage cereals. The Company has contracted also short term credit as APIA grant and also work capital with Agricover IFN.

Non-current liabilities and current liabilities

Based on short term credit facilities, like fuel credit, cash discount or working capital, the group purchased materials and consumables but also bought land and equipment, which brings long term results. The major part from this short term loan is used to continue the investments in Tătăranu. Also, the principal source for the expenses to reconsolidate the former sugar factory and to buy land is the shareholders loans, respectively in 2019, the investors borrowed the Company with 1.000 k euros.

In 2019, FrizonMaica bought a big grain belt conveyor from Netherlands and then the investment was refinanced by leasing with Idea Leasing for 5 years for which it was paid an advance of 30% from total value - 38 k euros. But the most important acquisition was the irrigation pivot from Valinst that was also refinanced by credit in EUR for 6 years with Agricover IFN.

Also, in September 2019 FrizonMaica obtain a long-term credit also for 6 years from Agricover IFN for refinancing the acquisition of 177 ha land property.

With Agricover IFN the Group has more contracts for long term, in total 843 k euros for refinancing land and assets loan, like pivots and extravilan land. The interest for this contracts is 4,75% + 3M Robor and in 2019, the Group paid like principal to Agricover IFN the value of 325 k euros and like interest, 65 k euros, 50 k euros just for assets loans. In 2020, according with schedule payments, the Group need to pay in October in special, almost 87 k euros like interest.

The future strategy for the Group is to refinance all this type of credits to optimize the finance costs through banks and international investments funds, like IFC for a long period, over 10 years to save costs and create extra money to become more efficient for all directions.

FrizonMaica received In December 2019 for acquisition land from others investors - outside the group, 250 k euros that we registered also in shareholders transactions.

The principal suppliers for current activities are Alcedo and Agricovert that make the invoices in 2019 for the inputs that the companies ordered at the beginning of the agricultural year 2019-2020 with payments data in autumn of the next year, when they will invoice also the discounts, according with the sale contracts.

Payments in advance, 267 k euros represent the value that FrizonMica paid to several suppliers like, Agmi, Termoflor, Energomat, etc. for different works at Tataranu, like roof, electrical and ventilation systems for new deposit building C39 in special, because it was a large amount to pay and the partners made partial invoices. At the beginning of 2020, all partners was paid. Compared to the previous year, the debt to the main suppliers Agricovert and Alcedo increased, in accord with the new investment and also with the new type of inputs as liquid fertiliser.

The increase of value regarding the related parties payables comes in special form the intragroup money transfers from Frizonagra to support the activity from Tataranu, the value of the contribution in 2019 being 1.168 k euros from Frizonagra. Also, Frizonagra Crops & Frizonagra borrowed Agricola with 138 k euros for current activity. In accord with aggregation between FrizonMaica & Agricola, it was eliminated the value of 91 k euros like mutual debts.

The terms are normal and changes were not significant.

Revenues structure

Revenues

Revenues increased in 2019, however, prices level have also increased though the yields decreased because of the meteo instability.

Revenues are 25% higher than last year, due to the increase with 33% of the price for sunflower and also in accord with the providing storage & deposit services for third parties at Tataranu.

Revenues from services come from providing various services to third parties such as fertilizing, cultivating, subsoiling, cultivating, chemical treatments, harvesting, weighing, grain analysis, etc. The value of services sale is higher in 2019 compared to 2018 in accord with the secondary activity at Tataranu from where the group obtain more than 200 k euros. The works done by other companies in the group has decreased, as they have also purchased new assets and equipment.

The revenue from rent represent the deposit services at Tataranu, 114 k euros from intragroup storage and 92 k euros from Cofco, Alcedo for deposit of cereals and form Agricover for deposit of inputs.

Revenues

In 2019 the revenue of 100 k euros from sales of equipment comes from the sold of 25,4589 ha land to Gabana Ferm.

Compared with the previous year, the sale prices for sunflower, peas and corn grew up considerably and the biggest increase was for the price of sunflower, respectively with 36,83% more than in 2018.

The production returns are lower to the previous period, for example for corn, the yield was with 33 % smaller than in 2018 and for sunflower the yield remains stable with a small decrease of 5.92%.

The mix of crops is the same as last year, respectively, corn, sunflower and peas (a small surface of 5% from total). The most profitable crop is corn, so the biggest is cultivated with this crop, respectively 71%.

The price per tone has been different than last year, respectively for all crops was higher according with the global situation, the biggest difference was for sunflower, respectively with 36.83%. In 2019, no intragroup corn transfers were registered and at the end of 2019, Agricola Oostroem had plus 3714 t and Frizonagra had minus 2565 t and Frizonagra Crops, minus 1032 t, that we will register in the accountancy in 2020. Because of the fact that Agricola & Frizonmaica didn't finished the harvest in 2019.

Subsidy type (EUR'000) and others				FY18
Fuel subsidy 2018 (cashed in 2019)				42
APIA subsidy for 2017-2018 agr. year cashed in 2019				296

APIA subsidies were received for diesel and for cultivated areas in 2019. The amounts came from different types of specific grants, detailed in the left-hand table, which are accounted for when accredited through the APIA grant request, not when it is actually received in the bank account.

In 2019, APIA penalised FrizonMaica with 100% for non-compliance of strictly conditions for the grant Green Package P4 and with 75% Agricola for the same type of subsidy. Salaries costs remain almost the same.

The expenses with cereals' transport decreased with 45 % k in accord with the possibility to transport cereals by train from Tataranu.

The rent for land is rising as a consequence of a market trend. Insurance costs remain the same like in 2018.

The expense with utilities increased in accord with the acquisition of the new headquarter from Tataranu where many rehabilitation works had to be done.

The expenses with the interest on bank loans are 81 k euros, from which 46 k euros are related to the leasing contracts.

Foreign currency loans are recorded in Romanian Lei at the exchange rate in force at the end of the year. The volatility of the local currency affects the financial statements through negative or positive exchange rate fluctuations. The company did not record foreign exchange differences due to foreign currency loans. This affected the end result by subtracting the loss.

Volatility of the exchange rate will continue to affect the income statement for the future. Management is willing to explore different solutions to minimize the financial effect on financial statements.
